

evoshare

retirement, powered by spending

EvoShare is a revolutionary financial platform that enables employees to earn cash-back toward their 401(k) or 403(b), IRA, or college savings fund while shopping online and locally at stores, bars, and restaurants. Our service allows employees to spend at their favorite businesses, and receive up to 20% cash-back towards their financial futures through their employer.

EvoShare partners with employers looking to take 401(k) engagement to a whole new level and empower employees with a new source of money for their financial goals. EvoShare’s mission is to make saving for the future a daily habit, and give everyone, regardless of income level, a sustainable source of funds for their financial objectives. Below is the price for this core product, which is a flat amount charged monthly based on the size of your company.

Cash-back to Student Loans:

For employees burdened with student debt, you as their employer can unlock a new source of money for their student loan repayment; cash-back from thousands of merchants. A percentage of your employee's everyday spending will go toward their student loan repayment with unprecedented ease of use.

Cash-back from Family Members:

Family members can strongly influence employees' satisfaction with their employer. With this feature, you can engage employees' family members by allowing them to earn cash-back with EvoShare and boost contributions toward an employee's financial goal. The family that saves together, stays together (with an employer).

Impulse Saving:

This feature provides an "easy button" for employees to contribute more toward their 401(k), on top of the cash-back they've accrued with EvoShare. Employees can increase their end of the quarter, retirement contribution as they wish through their dashboard, browser extension or email notifications coming from EvoShare. They can do so in small increments at their convenience. Impulse Saving is a great way for employers to encourage and track deliberate savings that improve employees' financial wellness.

Team Savings Competition:

Employers can switch on this feature to gamify the EvoShare experience for employees. EvoShare groups employees into teams so they can compete to see which team saves the most for their financial future, thus encouraging employees to brag about their savings more than their spending. As an employer, you have the opportunity to get creative and determine how winning teams can be rewarded.

Co-branding:

Employers can "make EvoShare their own" by co-branding our platform and customizing the experience for employees. Every time employees browse the web or shop at a participating merchant, they will be reminded of how much their employer cares. Each component of the EvoShare benefit will be brought to your employees, by you.
